

OMRON

Selection Guide To Temperature Controllers

E5□J Temperature Controllers

Fuzzy Self-tuning with Advanced PID for Optimum Temperature Control

No Tuning Required

E5□J requires NO tuning after initial setting. Just set the desired temperature. Optimum PID constants are automatically calculated. The result is time saving.

PID is checked at:

Easy Setting

Input

Selectable temperature input from a wide range of temperature sensors.

Output

Selectable plug-in modules of relay, voltage or linear output units, according to the application.

Watertight

The E5□J front panel meets the requirement of IP54 on E5AJ/E5BJ/E5EJ. Additional IP66/NEMA4 can be met with optional cover.

Communication Function

The E5AJ/E5EJ provide the optional RS232/RS422/RS485 communication functions and RUN/STOP operation by external input.

E5□K Digital Controllers

Centralized Control of Various Data to Satisfy Application Needs such as Temperature, Humidity, Pressure, etc.

SYSMAC α C200HX/HG/HE

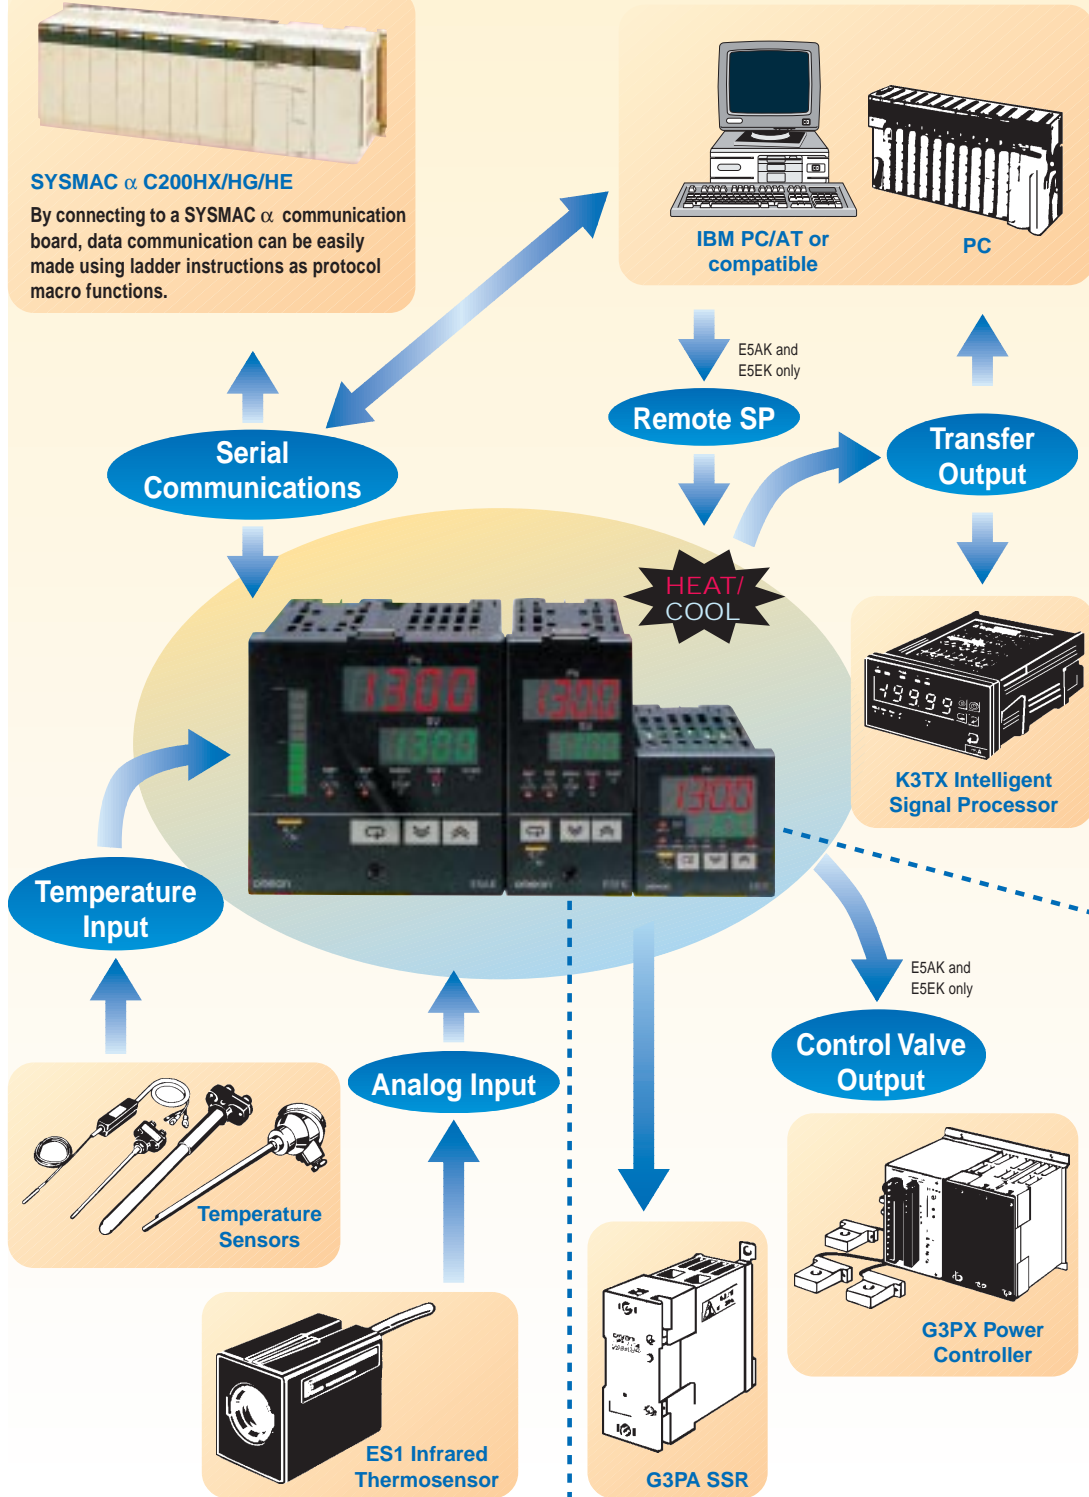

By connecting to a SYSMAC α communication board, data communication can be easily made using ladder instructions as protocol macro functions.

IBM PC/AT or compatible

PC

SELECTION GUIDE

Classification	Economical Temperature Controllers		
	E5EM	E5C2	E5CS
Product Model			
Appearance			
Dimensions (H x W x L) mm	96 x 48 x 100	48 x 48 x 96	48 x 48 x 100
Features	<ul style="list-style-type: none"> • P control • Thumbwheel switch setting • Maximum heater current: AC 5A/20A/30A single phase (SW selectable) • Deviation indication (meter) / LED PV display 	<ul style="list-style-type: none"> • ON/OFF or PD control • Economical plug-in unit • Panel adapter supplied 	<ul style="list-style-type: none"> • PID or ON/OFF control • Compact, panel mount or socket mount unit • Large, easy to read LED display • Selectable temperature ranges • Input shift • Self diagnostics • 8 alarm modes • °C/°F selectable • Key protect function
Model Variations	<ul style="list-style-type: none"> • Heater burnout alarm • Digital indication • Deviation indication (meter) 	—	—
Indication Accuracy	±1.5% max. of full scale	±2% max. of full scale (setting)	±0.5% of full scale, ±1 digit max.
Control Modes	P	ON/OFF or PD	ON/OFF or PID
Temperature Sensors and Input Ranges	Type K Thermocouple: 0 to 399°C	<ul style="list-style-type: none"> • Type K Thermocouple: 0 to 1,200°C (7 scales) • Type J Thermocouple: 0 to 400°C (3 scales) • JPt100: -50 to 400°C (7 scales) • Thermistor: -50 to 300°C (5 scales) 	<ul style="list-style-type: none"> • Type K Thermocouple: 0 to 999°C (6 ranges) • Type J Thermocouple: 0 to 500°C (5 ranges) • JPt100, Pt100: -50 to 400°C (9 ranges) • Thermistor: -50 to 300°C (10 ranges)
Supply Voltage	100/110 or 200/220VAC, 50/60Hz	100/110 or 200/220VAC, 50/60Hz	100 to 240VAC, 50/60Hz or 24VDC/AC
Control Outputs	<ul style="list-style-type: none"> • Relay: SPDT, 3A, 250VAC (Resistive load) 	<ul style="list-style-type: none"> • Relay: SPDT, 3A, 250VAC (Resistive load) 	<ul style="list-style-type: none"> • Relay: SPDT, 3A, 250VAC (Resistive load) • Voltage: 12VDC, 20mA • Alarm: SPST-NO, 1A, 250VAC (Resistive load)
Weight (Approx.)	340g	200g	170g
Front Panel Approval	—	—	IEC IP50
Approved Standards & Markings	—	UL, CSA, CE	UL, CSA, CE

* For further details, consult OMRON representatives.

Precision Temperature Control

G32A CYCLE CONTROL UNIT

- Employs a cycle control method that allows power control with minimal noise generation.
- Used in combination with G3PA to connect to single-and three-phase loads.
- Control signals can be input with the built-in adjuster, the external adjuster, or a DC signal current of 4 to 20 mA.
- Closely mounted to G3PA with the linking terminal.
- 100 to 240 VAC supply voltage.

G3PA SOLID STATE RELAY

- Downsizing achieved through optimum design of heat sink.
- Dense mounting possible with linking terminals.
- Applicable with 3-phase loads.
- Replaceable power element cartridges.
- Conforms to VDE 0106 (finger protection), with a dielectric strength of 4,000 V between input and load. (see note)
- Conforms to VDE 0805, IEC 950. (see note)

Note: Except for G3PA-420B/-430B
